

**PEKELILING PENGARAH TANAH DAN GALIAN SELANGOR  
BILANGAN 23/1952**

---

**Location of Sites and Land Acquisition**

---

Heads of Departments are requested to note that the responsibility for locating and acquiring land for any public work rests with the Head of the Department concerned, who should institute action through the local Collector of Land Revenue.

2. The Public works Department is not responsible for locating and acquiring sites for occupation by other departments but ordinarily the Public Works Department will advise on the suitability on the Land for the purpose in view.

3. Funds will not normally be voted for any Public Works unless a site is available. The sum to be provided in the estimates for construction of a building must include the estimated cost of acquiring the site, which should be ascertained by the Head of Department from the Officer in charge of the Band Office.

4. Misunderstanding of the Head of Departments responsibility in the matter of sites has in the recent past resulted in delay in the execution of work.
