

**PEKELILING PENGARAH TANAH DAN GALIAN SELANGOR  
BILANGAN 2/1959**

=====

**RESCISSION OF EXPRESS CONDITION OF TITLE  
UNDER SECTION 41 (I) OF THE LAND CODE  
FOR PLANTING RUBBER**

-----

In the past, when an application for rescission of express condition of title under section 41 (i) of the Land Code to permit the land to be planted with rubber is approved, the old rubber trees of non- approved material grown on the Land have to be radiated first. This procedure is not economically sound and will only cause hardship to the applicant.

2. Collectors of Land Revenue are, Therefore, advised that in future no mass eradication of the rubber should be under taken but instead the following express condition may be imposed:-

“ No rubber other than material approved by the State Agricultural Officer shall be planted or permitted to grow in addition to or in replacement of the rubber trees now permitted to remain on the land hereby alienated”

3. This will have the effect of enforcement conversion to approved material at such date as the existing material proves useless.
